

# WELCOME TO LINEWORK

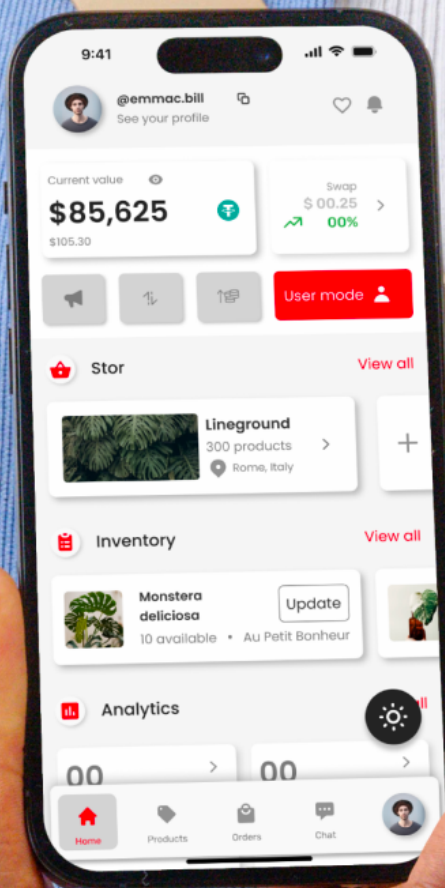

The application of Linework through its technology allows simplified access to the use of digital assets on tangible markets in **Europe, the Middle East, Asia, Africa and South America**. We believe in the ethical principles of business and opportunity, of economic sustainability and we apply them in relationships with our users, in production activities, in the development of new products and in eliminating social constraints.

Linework's ecosystem allows its users by carrying out every new activity on the blockchain ensuring security in transactions and operations in the markets of goods and services, and in the protection of both the seller and the buyer on the blockchain.

-  Like Amazon, Linework offers a global and powerful marketplace.
-  Similar to Uber, Glovo, or Just Eat, it provides delivery services worldwide, including in areas where Amazon or Uber do not operate (80% of countries).
-  Like PayPal, Linework offers smart instant payments without boundaries.
-  Like Facebook, users can interact socially, and like Instagram, they can share their lives with stories and other features.
-  Like Twitter, users can tweet anonymously and publish content freely without censorship or threats.
-  Similar to Binance or Coinbase, users can monitor digital markets, swap, use, or liquidate assets within their bank account, or use digital assets to purchase goods and services directly in the marketplace.
-  Like WhatsApp, Linework allows secure messaging without relying on mobile phone or telecommunication networks, and users can create private or secret groups.

**Linework is available on the Apple Store, Google Play Store, Tor network, and decentralized platforms.**

Unlike others, **Linework is uncensorable and guarantees freedom of speech, moral and physical integrity.** It is untraceable and cannot be geolocated by authorities or government entities.

In summary, Linework combines all the common technologies and software in a user-friendly manner, connected to the entire DeFi world:

Users can buy and sell with digital assets using the Linework App, with Linework Coin, and various other crypto assets.

Interact, publish, trade, pay, deliver, create a store, and advertise freely worldwide.

Be yourself for the first time in the digital world.

## PRODUCTS AND SERVICES

Linework Company offers a range of 4 business lines & innovative products and services, all included in one single product: Linework App, empowers users to:

### ○ SPIRAL

A decentralized social network that promotes conversations and products sold on Bloop Marketplace.

Spiral allows its users to stay connected with friends, family, colleagues, or customers.

Social networking can have a social purpose, a business purpose or political purpose.

The social network allows its users to communicate freely always in respect of human rights principles.

### ○ BLOOP

Using digital assets through the crypto Marketplace. Bloop is the marketplace without limits: manage community, shipping, and C2C/B2C sales without obstacles.

With low commissions and total control, we put the power in your hands. Discover extraordinary products sold by individuals and companies, connect, and do business in a digital environment. Use digital assets to buy and sell in an innovative and convenient way.

Bloop is the future of the marketplace, turning every interaction into an opportunity for growth.

### ○ BANK

including an internal wallet for cryptocurrency management, trading, and staking/saving programs.

This feature represents a groundbreaking financial service that enables users to manage money internationally with ease. It simplifies financial transactions that are otherwise complicated and expensive while maximizing security and efficiency.

Users can use Linework to do almost anything related to money, such as transferring money to family members, paying for goods and services, and swapping cryptocurrencies.
